GRANADA COMMUNITY SERVICES DISTRICT

AGENDA MEMORANDUM

To: Board of Directors
From: Delia Comito, Assistant General Manager
Subject: Public Hearing: Consideration of Sewer Service Charge and Delinquent Garbage Account Report for the 2021/22 County Tax Roll
Date: July 22, 2021

I have attached the Sewer Service Charge and Delinquent Garbage Account Report for Fiscal Year 2021/22, and corresponding Resolution for Board approval.

The District is required to hold a public hearing, which has been duly noticed in the Half Moon Bay Review, to receive public comment and to consider any objections or protests regarding the charges contained in the report.

All premises connected to the District's wastewater system are subject to the sewer service charge. The amount of the charge remains unchanged from last year at \$580 per dwelling for residential customers, and as the minimum charge for non-residential customers, who are otherwise charged based on annual metered water consumption for the user's premises (measured in hundreds of cubic feet) for the preceding 12-month period ending on March 30th.

The total amount to be placed on the tax roll for fiscal year 21/22 is \$1,805,107.33, a reduction of \$76,350 from last year. The reduction is due to lower water usage by non-residential customers due to Covid-19.

The Delinquent Garbage Account Report represents all past due Recology accounts for garbage collection services provided between April 1, 2020 to March 31, 2021. There are a total of 132 delinquent accounts, which will be assessed on 128 parcels. Recology's General Manager has confirmed that the attached report totaling \$43,593 is correct.

Upon the conclusion of the hearing, staff recommends approving the report and adoption of the resolution to be filed with the Controller of the County of San Mateo for collection on the tax roll in accordance with the provisions of Sections 5473.5 through 5473.11 of the Health and Safety Code of the State of California.

RESOLUTION ADOPTING SEWER SERVICE CHARGE REPORT AND DELINQUENT GARBAGE SERVICE CHARGE REPORT, AND AUTHORIZING COLLECTION OF SAID CHARGES ON THE 2021-2022 TAX ROLL

The Board of Directors of the Granada Community Services District (“District”) finds and determines as follows:

1. The District will adopt a budget for the fiscal year beginning July 1, 2021;
2. The District has adopted by ordinance an annual rate for sewage service charges according to the classification of uses;
3. A written report was prepared and filed with the District Secretary pursuant to District Ordinance Code Section 700(11)(B), containing a description of each parcel of real property with premises connected to the District’s wastewater system (unless exempt pursuant to Section 501(02) of Article V of the District Ordinance Code). The written report also contains the charge for each such parcel for the fiscal year beginning July 1, 2021;
4. A written report was prepared and filed with the District Secretary pursuant to District Ordinance Code Section 303(03), containing a description of each parcel of real property being delinquent in payment of charges for mandatory garbage service and the delinquent charge for each such parcel as of March 31, 2021;
5. A notice of the filing of the report and of a public hearing for July 22, 2021, at 6:00 p.m. via teleconference was published as required by Health and Safety Code section 5473.1 and Government Code section 6066;
6. At the duly noticed and teleconferenced public hearing on July 22, 2021, the Board heard and considered all objections or protests, if any, to the written report regarding the sewer service charges and the written report regarding delinquent payment of garbage service charges.

IT IS RESOLVED, found and determined by the Board of Directors of the Granada Community Services District as follows:

1. The sewer service charges for each parcel contained in the written report thereof were computed in conformity with the rates prescribed by the District Ordinance Code for sewer service charges;

2. The delinquent charges for mandatory garbage service contained in the written report thereof are accurate;
3. The final sewer service charge report, a copy of which is attached to this resolution, is adopted and approved;
4. The final delinquent garbage service charge report, a copy of which is attached to this resolution, is adopted and approved;
5. The District elects to have the said sewer service charges for the forthcoming fiscal year, and the delinquent garbage service charges, collected on the County of San Mateo tax roll, by the same persons and at the same time as, together with and not separately from, the general taxes.
6. The Controller of County of San Mateo is authorized to enter the amounts of the charges shown on the sewer service charge report and the delinquent garbage service charge report against the respective lots or parcels of land as they appear on the current assessment roll. GRANADA COMMUNITY SERVICES DISTRICT

AGENDA MEMORANDUM

To: Board of Directors
From: Chuck Duffy, General Manager
Subject: Final GCSD Sewer and Parks and Recreation District Budgets -Fiscal Year 2021/22
Date: July 22, 2021

Attached for your Board's consideration are the Final Fiscal Year 2021/22 Sewer District budget and Parks and Recreation District budget. At our last meeting, your board reviewed the draft budget. Based on our discussions, the budgets have been finalized and are now presented for approval at this meeting. The only change from the budget reviewed in June was the expected revenue from sewer service charges was reduced to \$1,810,000 from \$1,887,000, based upon Delia's calculated sewer service charges to be placed on the property tax bill for the coming fiscal year. Since the sewer service charge for commercial customers is based on the prior year's usage, water use was down due to the COVID restrictions put in place by the government. The annual sewer service charge remains at \$580 per ERU for this coming fiscal year as decided at the last meeting. Budget highlights include:

- Sewer Authority Mid-Coastside – SAM operates the treatment plant and intertie pipeline system which treats the District's sewage. Operational costs at SAM had increased relatively substantially in previous years, but the good news is that these past 2 years' costs have remained basically unchanged. The SAM infrastructure budget is budgeted at \$508,000. The Contract Collections Services Budget shows an increase of \$60,000, due mainly to the purchase of a new sewer mainline cleaning truck.
- The GCSD administrative budget will be \$42,000 higher than last year, due mainly to the full time admin position being filled. Most other costs are stable.
- On the sewer capital projects side, both the sewer replacement project based on the District 6 Year CIP Replacement Plan and the Naples Beach Phase 2 Medio Creek Bridge Crossing mainline removal and redirection plan are both underway.
- On the Parks and Recreation side, I have budgeted \$300,000 for landscape design and permitting, as well as civil engineering design for the Burnham Park.

Note that property tax revenues which have previously been allocated to both the Sewer budget and the Parks and Recreation budget are now allocated solely to the Parks and Recreation District, per board direction.

Administration

There were two Board Meetings in the month of May. There were no public records request in May 2021. There were no articles in the HMB Review in May 2021. There has been no lost time work accidents since September 10, 2019. There were no new hires, and no anniversaries in the month of May.

Operations & Maintenance

The following permanent flow storage installations are in place and functioning properly.

Montara Pump Station – Walker Tank, which has a capacity of 434,000 gallons.

The Portola Station – Wet Weather Facility, which has a capacity of 200,000 gallons. Phase two of this project is complete now giving us an additional 200,000 or a combined total available storage volume of 400,000 gallons at this location.

The Portola Pump Station has the ability to use the Wet Weather Facility as a modified equalization basin if needed, (without mixing it is not ideal for this use) or as wet weather flow storage as originally designed.

Operations in May were better than April, that being said it's been a roller coaster here with process issues, and sampling more then we have in I don't know how long. That being said things did look better this month so I'll take it.

We are still have issues with filaments and there was a few elevated BOD's the end of the month so time will tell.

We were able to get the diffusers replaced in AB #3 which was needed after about 20 years of continuous service. EDI was the company that did the work and based on the drawing things should have gone fine. That is what we all thought until we actually got into the project. The parts that were installed were from a company that no longer is in existence. The backing plate design was no longer in use and had been not been in use for many years. There we were in a spot we are familiar with, older equipment that can be problematic to service or find replacement parts. The EDI guys were on top of things and were determined to work with us with these opportunity's to correct things. They put long hours to get it working, they had to replace the backer plates, (about 1400) and install new O-rings throughout. It seems to be functional and the plan is to seed the basin and switch right after the long holiday weekend.

Due to the high samples last month we had almost daily TSS, Bod, and Entro samples going out which is hectic but it does give us more information. Our averages for the month of May were well below our NPDES permit so that was a good thing.

We did have two meetings with the Brown and Caldwell folks to discuss process issues, startup of the MLSS basin and general progress of their plant evaluation.

As always, I have been openly communicating with William Burrell at the state to be sure he is kept in the loop of what we have going on.

During the month of May 2021, rainfall was below normal for Half Moon Bay. The 10-year average for the area is 0.442 inches of rain in May, this web link has some very useful data for our area, <https://ggweather.com/hmb/> . We did get some rainfall to report for the month of May, but it was minimal at best. Rainfall totals were as follows: 0.12 inches at the treatment plant, 0.04 inches in the GCSD service are, and 0.16 inches at the MWSD weather station. Well below the 10 year average still, much like the last few months. There were micro-climate variations verified by the data.

Below is a chronological summary of some of the occurrences during the month of May 2021.

- 5/1/2021 – Continuing with poly addition to the MLSS basin for settling issues
- 5/2/2021 – Continuing with poly addition to the MLSS basin for settling issues
- 5/3/2021 – Calcon in the plant working on flow meters, there were some pumping issues on the Primary poly pump today, add poly to MLSS basin
- 5/4/2021 – Calcon back to work on flow meters, EDI he working on diffuser membrane replacement in AB 3, realized the information we had on AB 3 was wrong the number of diffusers was off by about 400 so we had to revise the original scope to include the additional work. 55 Fire extinguisher annual checks were completed today for plant and stations.
- 5/5/2021 – EDI was back, today we found that the original backer plates were discontinued some years ago, the membranes are not compatible with the 20+ year old design so new backer plates are needed to complete the work. This will add \$5,000 to the project cost (including parts, overnight shipping, and labor). Senior operator Gabe completed the WP study for the lab, study closes end of the month.
- 5/6/2021 – Meeting with PG & E today to discuss the power fluctuations at stations, we are looking at monitors through PG & E. Since most of the issues occur during the winter months we decided there was no value in installing

- 5/12/2021 – EDI back working on AB 3 – here till 20:00. Add poly to secondary to help with floc structure, different concept I had read about. Odor control webby
- 5/13/2021 – EDI back to work on AB3 – seems better now just took some work with the old parts. Poly to secondary again for floc. Drop off truck in Redwood City to have safety lights installed.
- 5/14/2021 – Adding poly to secondary still for settling, going to try chlorinating RAS at different times
- 5/15/2021 – Saturday – poly to MLSS basin
- 5/16/2021 – Sunday - poly to MLSS basin

- 5/18/2021 – Poly to secondary, fork lift service
- 5/19/2021 – Discuss AB 3 with BC folks, cyber security folks at plant and stations, poly to secondary’s, met with vapex regarding odor control at stations, talk with Will Burrell regarding reporting of violations to make sure we are on the same page.
- 5/20/2021 – Replace gate anchors on the west basin for the contact basin, poly pumping to secondary’s now to center ring, (a new concept)

ITEM #18

July 9, 2021

Memorandum

To: Granada Community Services District
From: John H. Rayner, District Engineer
Subject: Engineer's Report for July 2021

6-Year CIP

Devaney Engineering continues to make progress with the project. However, on Palma Street between Isabella and Santa Maria several problems were encountered that resulted in delays. It was discovered that the sewer to be replaced was asbestos cement pipe (ACP), not VCP as shown in GCSD records. Because asbestos is a hazardous material removal and disposal of ACP requires specialized procedures, personnel and equipment. Also, the replacement sewer needed to be installed deeper than shown on the plans because a portion of the original sewer sloped in the wrong direction (the sewer at the downstream manhole was at a higher elevation than at the upstream manhole) requiring the entire sewer on this block of Palma Street to be installed by open cut, rather than by pipe bursting. We anticipate that construction for the project will be completed later this month.

Naples Beach Project - Phase 2

Last month both Monterey pine trees were removed by Monster Tree Service. Then a nesting bird survey conducted on June 25th did not identify any active bird nests clearing the way for field construction activities to begin on Monday, June 28th. The sewer contractor, Golden Bay Construction, began by potholing along the Mirada Road sewer alignment to identify potential conflicts. Potholing exposed previously unidentified buried electrical conduits that required the alignment of the new sewer to be shifted south about 5' on Mirada Road to avoid the electrical conduits. This week sewer construction began along State Parks property, the undeveloped "paper street" Ramona Way. Since the County replacement pedestrian bridge project over Medio Creek has not yet been advertised for construction bids, we anticipate that this sewer will be in operation before the existing sewer over the creek is demolished, avoiding the need to have a temporary sewer bypass.

Medio Creek Crossing at Mirada Road

The leased temporary pumping system has been operating since January 2018. The temporary system will remain in operation until the Naples Beach Phase 2 project is constructed.

Replacement of Pedestrian Bridge over Medio Creek

The County has designed the replacement of the existing pedestrian bridge over Medio Creek and the CDP for the project was recently approved. The County did not advertise the bridge

project for construction in June as expected. The project affects the District because it includes demolition of the existing abandoned road bridge on which the District's 10" sewer and temporary 2" force main (FM) are attached. Unless Phase 2 of the Naples Beach Project is constructed first, the temporary 2" FM crossing Medio Creek will need to be rerouted to discharge into a manhole at the end of San Andreas Ave. This temporary bypass was included as an optional bid item in the Naples Beach Phase 2 construction documents.

Big Wave (Class 3 Permit)

Big Wave has been advised that they will need to provide GCSD with submittals of materials intended to be used to construct the mainline extension and its construction schedule for review and approval before beginning construction. To date we have not received any submittals nor a construction schedule from Big Wave.
